SUMMARY

As a front-end developer with skills in HTML, CSS, JavaScript, React and more, I aim to provide an easier experience for the users and to focus on their problems firstly, rather than on the technical ones. Willing to continuously gather new skills and expand my actual ones, I do everything to stay up-to-date with the latest technologies of the mad, but beautiful, front-end development world.

WORK EXPERIENCE

JUNIOR FULL-STACK DEVELOPER
SIVECO | Sept 2018 - Present
Bucharest, Romania
My role within the company is to analyse, test and develop back-end and front-end code for the multiple projects I am working on.

JUNIOR WEB DESIGNER
Easitill | Oct 2017 - June 2018
Brixworth, United Kingdom
My responsibilities included the designing, the prototyping and the development of e-commerce and brochure websites, as well as improving brand identity, SEO and performance.

PROJECTS

THE FUTURE | 2018
Clothing Store built using WooCommerce
the-fut-ure.com

UNIPLANNER | 2018
Student planner and team collaboration web application created so that the users can keep track of their course, as well as collaborate by sharing notes and creating tasks.
uniplanner.co.uk

HOME-START NORTHAMPTON | 2017-2018
Working in a team of four, the WordPress CMS was used to develop a website that reflects and promotes the support offered by the charity.
